

OverNite Software, inc. is Now Offering Community Classes!

Social Networking Series

Available July & August

Facebook®, MySpace®, Twitter®, and LinkedIn®

This series of 90 minute, instructor-led, hands-on workshops will be taught with web access so you can work on your social networking profiles in class. When you finish a class you will have your profile set up and the knowledge to navigate and add items to your profile page.

Pre-requisite: You need to have basic computer skills and know how to access the internet.
You must be 18 years or older to attend.

facebook

Facebook® for Beginners: This class will be an introduction to Facebook®. You will set up an account, create a profile, learn how to add friends, and join networks. You will be able to send messages to friends, write on your friends' walls, and set up your privacy settings.

This class will be offered from 8:00-9:30 daily, by appointment only

Twitter® Basics: This class will be an introduction to Twitter®. You will set up an account, create your profile, learn how to set your design and picture. You will learn terms that are common to Twitter®. At the end of this class you will have your Twitter account set and ready to Tweet.

This class will be offered from 10:00-11:30 daily, by appointment only

MySpace® for Newbies: MySpace® can be a confusing place to visit. This class will be a guide to getting you started. You will navigate around MySpace® by creating a profile, sending mail, meeting new friends, and posting bulletins.

This class will be offered from 1:00-2:30 daily, by appointment only

LinkedIn® Jumpstart: This class will bring the basic operation of LinkedIn® into focus for the average user. It will put you on the road to applying LinkedIn® with your business operations and career development.

This class will be offered from 3:00-4:30 daily, by appointment only

Cost of \$30.00 each class

Seating is limited!
